

Small groups to connect people, get everyone engaged , space to process initial responses/energy after big info input from presentation of Faslane 365.

Groups of 3 people 10 mins

Answer these questions :-

- What drawn to/excited about Faslane 365 at the moment/so far?
- What turned off by/sceptical about at present?

After sharing people to write Post- its with just one word or phrase (emphasise this minimalism by giving an example or two.)

NB - if for any reason better could get them to write on a flip chart two columns.

- don't want to use much time on this. facilitators could also just cruise around listening as another way of finding out concerns and learning points.

Explain they will go on a graffiti wall so that info. can feed into seeing where we are and where the gaps are, areas needing to be honed etc And to refer to later.

NB emphasise all along that 1) Faslane 365 very thought through and product of lots of experience AND 2) is created by everyone. ie by them , by feedback, even from people who don't participate.

People put their post its up on the graffiti wall.

Give time warning during the 10 mins to ensure everyone gets a chance to speak.
