

## **Organise and participate**

In the first three months of Faslane 365, thousands of people have blockaded the naval base where Britain's nuclear weapons are deployed. Hundreds have been arrested, but only a handful are being prosecuted.

*Bradford lock-on 16<sup>th</sup> November 2006.*

With banners, music, seminars, religious services, dancing, lock-on peace symbols, bicycle locks and all kinds of other imaginative ideas, people from all over Britain (and even other countries) have converged on Faslane. The size of groups has varied, with most between 30 and 100 people. We need you too. For the sake of the future, come to Faslane. Help block these preparations for nuclear war-crimes.

## **Demand Disarmament**

We have to act now to halt the immorality and waste of resources epitomised by Trident. By directly disrupting the submarine base, Faslane 365 raises public awareness and greatly increases the pressure on decision-makers in Scotland and Westminster, adding to the problems and costs of continuing nuclear deployments. Using nonviolent means, our intention is to uphold international law and direct resources towards safeguarding our real, human security.

All participants commit to the main demand: **Trident must be taken out of deployment and the government should make a timetable for dismantling the weapons, together with a commitment not to develop any new nuclear weapons.** All must also agree to a set of guidelines that stress nonviolence and respect for all. Beyond these basic undertakings, it is up to individual groups to conduct the blockade as they see fit.

*Contact us for more specific information, to find other interested people near you and to discuss any questions or practical concerns. Help and support are always available, including nonviolence workshops, and a detailed resource pack.*
